

Roadmap: A Systems Perspective

What Policies Guide Us?

CMS – HCBS Settings - Provide opportunities for individuals to seek employment and work in competitive integrated settings, engage in community life, and control personal resources.

Medicaid Modernization –

- Improved quality and access
- Greater accountability for outcomes
- More predictable and sustainable Medicaid budget

New Freedom Initiative - Allow adults with serious mental illness and children with serious emotional disturbances to live, work, learn, and participate fully in their communities.

Olmstead - “A public entity shall administer services, programs, and activities in the most integrated setting appropriate to the needs of qualified individuals with disabilities,” meaning “a setting that enables individuals with disabilities to interact with non-disabled persons to the fullest extent possible.”

Mental Health Re-Design –

- Equitable access to a uniform and integrated array of basic, core and additional core services
- Services based on best practices and that are cost effective
- Services that support lowans with disabilities to achieve the quality of life they desire in their communities

SF504 – Develop a community plan and engage the community to serve individuals with complex needs in their communities.

FY18 Strategic Action Plan

QSDA FY18 Strategic Action Plan

Service Development Workgroup

- C3 De-Escalation
- Multi-Occurring
- Trauma Informed
- Cultural Competency
- Integrated Care

Service Delivery Workgroup

- Support evidence-based, research based, & best practices
- Implement fidelity measures
- Explore IMR-EIMR

Service Assessment

- Continue to collect outcome data
- Validate data to ensure consistent implementation
- Establish goals and supports for next 12 months

Roadmap: Collaboration

Learning Communities/Shared Learning

Evidence Based Practices (Philosophies)

- Trauma Informed Care
- Integrated Treatment for Co-Occurring Substance Abuse and Mental Health Disorders
- Cultural Competency

Evidence Based Programs

- Supported Employment
- Permanent Supported Housing (PSH)
- Assertive Community Treatment (ACT)
- Family Psychoeducation
- Illness Management and Recovery

Research Based Practices (Philosophies)

- 5 Star Quality
- C3 De-Escalation
- I-START

The QSDA logo consists of the letters "QSDA" in a bold, white, sans-serif font, centered within a dark blue square. This square is further enclosed by a thin white border and a thicker black border.

Roadmap: Regional Dashboard

Services are Provided with Proven Strategies to Yield Desired Results

Value-Based Contracting

- Statewide Quality of Life/Social Determinant Outcomes
- Pay for Performance

Independent Verification of Network Provider Service Readiness

- % Trained in EBP
- % Implementing EBP
- % Implementing EBP to Fidelity

The QSDA logo consists of the letters "QSDA" in a bold, white, sans-serif font, centered within a dark blue square. This square is further enclosed by a thin white border and a thicker black border.

Why Moving to Value-Based Contracting?

“As health care systems transition from an encounter-based view of health care to a value-based focus on improved patient outcomes and satisfaction and reduced costs, they must map the system of care to identify the microsystems and redesign the care experience.”(*)

Key Issues:

- Fee for Service (FFS) doesn't provide financial incentives to use EBP's or performance measures
- Only ways to control FFS costs is through limiting eligibility, limiting units, or reducing reimbursement rates
- No industry standards or benchmarks
- Increased focus on connecting the head and body: services and supports
